

Last night my small group from church was over and they asked me about my little niece that's been in DCH this week. I showed them a picture of her with her Build A Bear. Cathy and Carol said that you would love to see it because your Optimist group must do this BAB event. My niece was not allowed to leave her room to make a bear, but my sister went down and made one for her and she was so happy. Now you have a poster child for your great club to bring smiles to sick kids. My niece has been sick since last Sunday and was in DCH for the flu and elevated lab work. She loves her "wonder dog" and I love your efforts at DCH. Thank you.
